Protect your Payments and Streamline Your Supplier Management with Eftsure inside of NetSuite

Eftsure seamlessly integrates with NetSuite to enhance security, eliminate manual processes, and reduce fraud risks without altering your finance team's established workflows. Access comprehensive validation and control over your supplier onboarding and payment processes—all from within NetSuite.

Onboard and Verify Suppliers in NetSuite

Easily onboard and validate supplier data during onboarding in NetSuite with Eftsure's automatic supplier verification requests and real-time validation status updates - all without leaving the platform.

Automatic Status Updates

Maintain up-to-date supplier records effortlessly with continuous visibility of the Eftsure supplier status within NetSuite, automatically flagging any status changes.

Self-Certification Capability

Empower authorised users to self-certify suppliers within NetSuite, increasing control and flexibility in the onboarding process.

Secure Payments

Validate payments within NetSuite with clear ‘traffic light’ visual indicators and set rules to block high-risk transactions—reducing errors and fraud.

Direct Integration with Banking Platform

Once payment files are validated, straight-through-processing sends the encrypted files directly to your banking platform, securing transactions without leaving NetSuite.
